

Table 8. **Academic science and engineering research space needs, by type of institution: 2001**

Type of institution	Net assignable square feet [in millions]		
	Available space in 2001	Available space reported as adequate	Additional space needed ¹
All academic institutions.....	147.5	42.7	40.4
Doctorate-granting institutions.....	140.5	39.4	36.0
Nondoctorate-granting institutions.....	7.0	3.3	4.3
Inside all medical schools ^c	82.5	22.7	22.6
Inside all AAMC medical schools ^c	79.3	22.1	21.6
Outside medical schools.....	65.0	20.0	17.8
Control			
Public.....	111.6	31.1	31.1
Private.....	35.8	11.6	9.2
Minority-serving institutions.....	6.4	2.4	3.5
All HBCUs ^d	2.3	0.8	2.3
Original 29 HBCUs.....	1.9	0.7	1.2
Hispanic-serving institutions ^e	4.1	1.6	1.2

¹ Additional space needed is based on current research program commitments.

^c Includes stand-alone medical schools.

^d Includes all research-performing HBCUs, including the 29 original HBCUs that have been surveyed since 1988.

^e Institutions where at least 25 percent of the undergraduate full-time equivalent enrollment is Hispanic.

KEY: AAMC = Association of American Medical Colleges
HBCUs = Historically Black Colleges and Universities

NOTES: Components may not add to totals due to rounding.

The values for total S&E research space reported in this table do not include any imputed data for survey nonrespondents. Further, data were not imputed for available space reported as adequate or additional space needed.
